

## OER Policy and Implementation Summit for the MHEC States

November 28-30, 2018

Sheraton Chicago O'Hare | Rosemont, IL

Draft Meeting Agenda

### MHEC OER Convening Goals

#### ***GOAL 1: Learn about OER – What are its opportunities and advantages for students?***

Learn about OER in general

Learn about OER efforts within states

Learn about OER efforts in other states

#### ***GOAL 2: Create a State Action Plan – What strategy will work for us and how will we implement it?***

State participants will analyze the status of OER efforts in their states, learn about options that have been successful in other states, and devise action plans for increasing the use of OER in their states. Action plans will emphasize multilevel approaches and leverage strategies learned from others at the multistate meeting.

#### ***GOAL 3: Commit to Follow-up Networking – How do we continue after the workshop?***

MHEC will facilitate regular calls among team leaders so they can share their successes, challenges, and questions. MHEC also anticipates providing webinars following the convening to address OER interests, opportunities and challenges. State participants will continue their implementation work with each other but also with the broader group via monthly phone calls.

---
