Mark Leuba, IMS Global
Mark Leuba is vice president for IMS Global Learning Consortium, the nonprofit organization dedicated to lifelong learning enabled through open standards. IMS’s 700+ member organizations work together under transparent governance to develop and publish open standards which connect teachers, learners and workers with opportunity. As a learning-technology executive and strategist, Mark is passionate about competency-based education (CBE) and its potential to improve outcomes for learners and workers, and since 2015 at IMS he has worked with leading education and workforce organizations, institutions and technology leaders to adopt IMS standards Open Badges, the Comprehensive Learner Record Standard (CLR Standard) for learning and employment records and CASE, the Competency and Academic Standards Exchange for institutions to manage outcomes and skills while integrating with the Credential Registry. Prior to joining IMS, Mark was Chief Information Officer for American Public University System (APUS), CTO for Moodlerooms and managing partner for Pathway Technology Partners, an education technology consultancy. Mark received his B.A. in Business Administration/Finance from the University of Baltimore.

Jeff Grann, Credential Engine
Jeff Grann is the credential solutions lead for Credential Engine, where he advances systems of trust that incent adult development and empower learners to reach their potential. He currently works with the higher education industry to advance the goal of publishing to the registry, setting standards, improving data integration and interoperability, and realizing use cases that improve credential decision making. Previously, Jeff worked at Capella University on a synergistic mix of academic and technical projects related to competency-based education. From 2005 to 2018, he defined and led the implementation of Capella University’s fully-embedded assessment system and its competency map, and most recently served as Academic Director of Assessment and Learning Analytics. He also has several years of teaching experience with traditional college students, adult learners, and higher education professionals. Jeff holds a Ph.D. in Educational Psychology from the University of Minnesota, and works remotely for Credential Engine from White Bear Lake, Minnesota.

Sara Appel, MHEC
Sara Appel serves as the Associate Director, Policy and Research Initiatives, in this role she manages the Multi-State Collaborative on Military Credit and the Midwest Student Exchange Program. She has been working with student service members in higher education for over 20 years and has experience in grant writing and program management. Prior to her working for the Compact, Sara was the academic programs manager at the Indiana Commission for Higher Education. She has an undergraduate degree in Secondary Education and a master’s degree in history with an emphasis on research. Both degrees are from Southeast Missouri State University in Cape Girardeau.

Becky Klein-Collins, Council for Adult and Experiential Learning (CAEL)
Becky Klein-Collins is the vice president for impact at the Council for Adult and Experiential Learning (CAEL). In this role, she manages research initiatives, develops strategic partnerships, and advocates for the adult learner in publications and public events. In previous roles at CAEL, Becky’s work has focused on prior learning assessment, competency-based education, public policy change, and system-transforming practices in workforce development. In 2018, she published *Never Too Late: The Adult Student’s Guide to College* (2018). Becky has a bachelor’s degree from Grinnell College and master’s degrees from Indiana University and the University of Chicago Harris School of Public Policy.

Emilie Rafal, Credential Engine
Emilie Rafal is the director of programs for Credential Engine. In this capacity, she develops and manages state and regional scale-up projects, oversees sector transparency initiatives, and leads special projects. Emilie began her work with this project as a Research Associate for the Credential Transparency Initiative through the George Washington University Institute of Public Policy, where she worked with credentialing organizations to test the CTDL and prototype search application during its pilot phase. She holds Bachelors degrees from the College of William & Mary in Psychology and Women’s Studies and a Master’s of Public Policy from the George Washington University, where she served as co-chair of the diversity & inclusion committee.

Stacy Townsley, Ivy Tech Community College
Stacy Townsley currently serves as Vice President for Adult Strategy and Statewide Partnerships at Ivy Tech Community College in Indiana. In this role, Townsley helps develop and lead strategic statewide initiatives to support adult learner success through cross-functional and cross-sector
campus and statewide partnerships, with a particular focus on working with employers, community-based organizations, and government agencies. Her work champions adult-friendly higher education practices including expanding the recognition and use of credit for prior learning (CPL). Before coming to Ivy Tech in 2017, Townsley was Associate Commissioner for Research and Analysis at the Indiana Commission for Higher Education, where she oversaw the Commission’s data collection and reporting efforts. Previous roles in higher education include academic administration and serving as an adjunct faculty member working with adult learners at four-year institutions. Townsley’s academic and professional interests center on supporting effective cross-sector collaboration. She is a member of the Education Design Lab’s inaugural Designer in Residence program and is involved with the Indiana Talent Network focusing on talent attraction, development, and connection. She earned her Ph.D. in Organizational Systems from Saybrook University in 2014 with a focus on exploring how effective community partnerships are developed and sustained. Townsley also completed a master’s degree from the University of Texas at Austin and undergraduate work at the University of Tulsa.

Holly Zanville, George Washington University
Holly Zanville joined the GW Institute of Public Policy in January 2021 as a research professor and co-director of the Program on Skills, Credentials & Workforce Policy. Holly is a former strategy director at Lumina Foundation, where she focused on the work-and-learn ecosystem, including the future of work; networks and partnerships; collective action initiatives; and research to increase awareness of and solutions related to workforce-education alignment, credentialing, and quality assurance. In her near-15 year tenure at Lumina, Holly focused especially on adult students and non-degree, workforce-relevant credentials, leading national initiatives such as Connecting Credentials, Credential Engine, and Credit When It’s Due. She also led research on how industry certifications are embedded in college programs, and was the architect of the Learn-and-Work Ecosystem Guide. Holly has a substantial history of speaking and writing about the meaning and value of credentials beyond high school. Her publications include a book chapter (Credentials for a New era of Work and Learning, Wiley, 2020), and many blogs, interviews, white papers, reports, and research briefs. Holly holds a BA from Lindenwood University (Missouri), MA from the University of Wisconsin-Madison, and Ph.D. from the University of Minnesota.

Jennifer Briones, Credential Engine
Jennifer Briones is the Project Manager for Credential Engine where she manages state and regional scale-up projects, explores expansion opportunities, and supports program and partnership development. Before joining Credential Engine, she was a Policy and Advocacy Associate at the Data Quality Campaign (DQC)–a nonprofit organization that works to ensure students, parents, educators, and policymakers have the right information to make decisions.

Jennifer holds a Bachelor’s degree from Loyola University Maryland in Political Science and Writing and a Master of Public Policy degree from the George Washington University, where she co-founded the Women’s Leadership Fellows program.

About MHEC
MHEC brings together Midwestern states to develop and support best practices, collaborative efforts, and cost-sharing opportunities. Through these efforts it works to ensure strong, equitable postsecondary educational opportunities and outcomes for all.

MHEC is comprised of member states from the Midwestern United States. MHEC works with and for a variety of stakeholders within and across member states, including higher education system leaders, state policymakers, legislators, and institutional leaders, while always maintaining a focus on students and their success. MHEC is a 501(c)3 entity statutorily-created in each of its member states which include: Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. MHEC’s office is headquartered in Minneapolis.

Year 1 of the MCTA

The Midwest Credential Transparency Alliance (MCTA) is a regional alliance working to advance credential transparency in service of learners, workers, educators, employers, and policymakers across the Midwest. The MCTA officially launched in May 2021 after several months of planning. Representatives from across the Midwest, as well as from national organizations, were engaged to develop and articulate a Charter, which was ratified by the membership at the first quarterly meeting and updated in August 2021. Current membership in the MCTA is just over 200 individuals representing all 12 Midwestern states, as well as national organizations with an interest in credentialing and credential transparency. In addition, 10 member states of the Midwestern Higher Education Compact are actively partnering with Credential Engine to move forward their efforts on credential transparency.

In summer 2021, MCTA established its first action team on the topic of “pathways.” This working group identified existing Midwest pathways and analyzed the properties and forms of these pathways. An October 2021 report on this work documented close to 700 unique pathways across the Midwest region. The action team committed to the following five action areas to advance credential transparency across the Midwest region: 1) Accelerate publishing all pathways and pathway components to the Credential Registry; 2) Develop interstate pathway connections; 3) Identify opportunities for pathways to better support incarcerated populations; 4) Define requirements for managing and visualizing pathways; and 5) Recommend policies supporting Midwest pathways. Each of these action areas has led to new or deepened connections with a variety of product and service providers.

What We Are Learning

**Context matters:** This project has also confirmed the need to understand each state’s unique goals, context, and opportunities. Each state in the MCTA is approaching credential transparency work differently, so it is vital to help them identify the appropriate starting points, value propositions, and strategies.

**Credential transparency practitioners value and prioritize regional meetings:** MCTA’s convenings have attracted an intended broad mix of credential transparency practitioners including representatives from higher education agencies/systems, K-12 agencies, workforce development agencies, and governor’s offices, with attendance at our quarterly meetings and pathway action team meetings growing over time.

**Collaboration in pathways work leads to useful resources:** Participants in MCTA and the pathways action team come from different stages in their states and/or institutional pathways work. Members ask each other questions and share strategies, and from this we have been able to develop a strong network and a set of resources to support credential transparency in the Midwest.

Next Steps

As we enter year two of our project, the MCTA will continue to convene on a quarterly basis, bringing together credentialing experts to discuss topics such as microcredentials, career pathways in fast growing sectors such as cybersecurity and autonomous vehicles, and the types of state and regional policies that best facilitate credential transparency across the region. From these discussions, the MCTA will continue to publish and share valuable information and resources with the region.
