Presidio	The company's Proactive Recapture Into Savings Management (PRISM) service includes components that analyze cloud spending data, tag cloud resources for cost allocation, identify usage spikes, track budgets and forecast costs. PRISM is built on Presidio's proprietary technology but integrates with third-party and cloud vendor tools. Presidio must be Root Account Holder Includes: EC2 Open Sources (Linux); EC2 License (Excl. MS SQL); RDS (Exl. MS SQL); Redshift Max Coverage Based on Instances Trends: 100% Guranteed Minumum Coverage: 100%	Contact Presidio for pricing. Pricing is calculated as a percentage of savings. Billing is monthly, in arrears. SOW is Required.								
Foundations & Operate										
Cloud ProServ Managed Services Monthly										
Product Name	Description									
Operate Tier 1	Managed Service of Customer's Cloud Infrastructure. Next Gen cloud based tooling to identify & interpret key metrics that tie technology to business value. 30% of Monthly Spend Range. Monthly AWS/Azure Spend Range: \$0-\$100k. \$3k Monthly Minimum. SOW Required. Does not require Presidio Cloud Resale.	\$ 30,000.00								
Operate Tier 2	Managed Service of Customer's Cloud Infrastructure. Next Gen Cloud based tooling to identify & interpret key metrics that tie technology to business value. 28% of Monthly Spend Range. Monthly AWS/Azure Spend Range: \$100k - \$250k. SOW Required. Does not require Presidio Cloud Resale.	\$ 70,000.00								
Operate Tier 3	Managed Service of Customer's Cloud Infrastructure. Next Gen Cloud based tooling to identify & interpret key metrics that tie technology to business value. 26% of Monthly Spend Range. Monthly AWS/Azure Spend Range: \$250k+. SOW Required. Does not require Presidio Cloud Resale.	Contact Presidio for Pricing								
Foundations Tier 1	Presidio led AWS Support of Customer's Cloud Infrastructure. Requires Presidio Cloud Resale. 8% of Monthly Spend Range. Monthly AWS Spend Range: \$0 - \$150k. SOW Required. Presidio Cloud Resale required.	\$ 12,000.00								
Foundations Tier 2	Presidio led AWS Support of Customer's Cloud Infrastructure. Requires Presidio Cloud Resale. 7% of Monthly Spend Range. Monthly AWS Spend Range: \$150k+. SOW Required. Presidio Cloud Resale required.	Contact Presidio for Pricing								
Azure CSP Tier 1	Presidio led Azure Premier Support. Monthly Azure Spend Range: \$0-\$250k. 4% Discount off MSRP. Requires Presidio Cloud Resale. SOW Required.	\$ 240,000.00								
Azure CSP Tier 2	Presidio led Azure Premier Support. Monthly Azure Spend Range: \$250k+. 6% Discount off MSRP. Requires Presidio Cloud Resale. SOW Required.	Contact Presidio for Pricing								
Managed FinOps	Managed FinOps Services: FinOps Certified Architect up to 40 hours per month Named Customer Experience Manager Reoccurring FinOps.org Framework Maturity Assessments Pool of Engineers for Ongoing Enhancements and Improvements up to 80 hours per month with offshore resources Off-shore resources can be included for potentially lower price FinOps Tool (optional): CloudHealth CloudZero FinOut.io Ternary	\$35,000 / month								
Managed FinOps		1.5% of Cloud Spend								
Presidio Cybersecurity Consulting Services Offerings Portfolio Version 6.0										
Presidio is able to perform cybersecurity activities through the use of the following: Principal Cybersecurity Consultant - \$323/hour Senior Cybersecurity Consultant - \$277/hour Cybersecurity Client Success Manager - \$246/hour										
Presidio can develop a Statement of Work (SOW) utilizing the above stated positions to perform the Delivery of Services stated in the table below: 1. Time and Materials: Contact Presidio for pricing for the identified resources and billed based on the rate card. 2. Fixed Fee: Contact Presidio for pricing that will be calculated from estimated time from below service categories to create a fixed fee price.										
Delivery Services										
Service Offering	Service Code	Service Family	RAP Approval Category	Service Description	FY25 Status	Private Label Option	Service Type	XAIT Available	# of Partners Available	
PCI ASV (Approved Scanning Vendor) Scan	ASV	PCI	Cyber: Technical	Quarterly scanning for external vulnerabilities, performed by an Authorized Scanning Vendor (ASV), as required for PCI compliance.	Active	Y	Custom	Yes	1	

External Cloud Penetration Test	CEPT	Cloud Security	Cyber: Technical	An assessment that attempts to gain access to the customer's Cloud environment by demonstrating what a malicious actor would do by exploiting or gaining credentialed access to an internet-exposed service.	Active	Y	Standard	Yes	1	
External Cloud Vulnerability Assessment	CEVA	Cloud Security	Cyber: Technical	Tools-based scan of Internet-facing (publicly available) information, assets, and services to discover vulnerabilities and determine organization's internet-facing security posture.	Active	Y	Standard	Yes	1	
Internal Cloud Penetration Test	CIPT	Cloud Security	Cyber: Technical	A controlled assessment simulating an internal threat to test the implementation of internal security controls in the cloud using common attack tactics and techniques to demonstrate how an internal threat could gain unauthorized access to critical Cloud assets and sensitive data.	Active	Y	Standard	Custom Scope	1	
vCISO Services	CISO	Advisory Services	Cyber: Governance	Security Advisory services structured to provide security leadership, strategy, and program development.	Active	N	Custom	Custom Scope	1	
Internal Cloud Vulnerability Assessment	CIVA	Cloud Security	Cyber: Technical	Tool-based authenticated scan of Cloud systems to discover missing patches, configuration issues, and other vulnerabilities that present a risk to the security of information assets and services.	Active	Y	Standard	Yes	1	
CMMC/800-171 Assessment (DFARS/ITAR)	CMCA	Advisory Services	Cyber: Governance	A targeted security risk assessment against the 110 controls found within NIST 800-171 for the purpose of addressing DFARS and/or ITAR requirements as defined by the Department of Defense.	Active	Y	Custom	Custom Scope	2	
CMMC Gap Analysis - Level 1	CMCG-L1	Advisory Services	Cyber: Governance	A high-level review of an organizations implementation of information security controls as defined by CMMC Level 1 requirements.	Active	Y	Custom	Custom Scope	2	
CMMC Gap Analysis - Level 2	CMCG-L2	Advisory Services	Cyber: Governance	A high-level review of an organizations implementation of information security controls as defined by CMMC Level 2 requirements.	Active	Y	Custom	Custom Scope	2	
Darknet Intelligence Analysis	DIA	IR Services	Cyber: Governance	Exploratory service intended to discover evidence of organization data openly available on the darknet that could be used for the purposes of a cyber attack.	Retired	N	No	Custom Scope	2	
Cloud Security Policy Development	CPOL	Cloud Security	Cyber: Governance	Collaborate with key stakeholders to understand the culture, business needs, and security requirements throughout the organization to ensure information security policies and standards address the entire Cloud landscape and are enforceable.	Active	Y	Standard	Yes	2	
Cloud Security Architecture Assessment	CSAA	Cloud Security	Cyber: Architecture	Security governance and architecture of Client cloud environment against cloud security best practices to evaluate risk, maturity, and impact with the goal of providing strategic/tactical roadmaps, recommendations, and guidance in areas of cloud risk and security architecture.	Active	N	Standard	Yes	1	
Cloud Security Configuration Assessment	CSCA	Cloud Security	Cyber: Architecture	Analysis of cloud security posture using industry and vendor best practices to evaluate misconfiguration issues and risk across cloud infrastructures, including Infrastructure as a Service (IaaS), Software as a Service (SaaS), and Platform as a Service (PaaS); providing prioritized guidance for remediation	Active	N	Standard	Yes	1	

Cloud Segmentation Strategy	CSEG	Cloud Security	Cyber: Architecture	Advisory Services that will guide all technical teams to consistently isolate access using networking, applications, identities, and data classifications for their Cloud Environment	Active	N	Custom	Custom Scope	1	
NIST CSF Assessment	CSF	Advisory Services	Cyber: Governance, Cyber: Architecture	Comprehensive security program risk assessment evaluating security and IT alignment to the NIST CSF framework with emphasis on Current State vs. Target State goals and current status of NIST CSF implementation tiers.	Active	Y	Custom	Custom Scope	2	
Data Governance Program Development	DGP	AI Security		Build and/or extend Client's data governance program to support legacy and AI requirements. Includes data governance policy, defining roles and responsibilities, formal data classification process, risk assessment including AI risk assessment, and development of security profiles.	Active		Custom	Custom Scope		
External Penetration Test	EPT	Security Testing	Cyber: Technical	An assessment that attempts to gain access to the customer's environment by demonstrating what a malicious actor would do by exploiting or gaining credentialed access to an internet-exposed service.	Active	Y	Standard	Yes	1	
External Vulnerability Assessment	EVA	Security Testing	Cyber: Technical	Tools-based scan of Internet-facing (publicly available) information, assets, and services to discover vulnerabilities and determine organization's internet-facing security posture.	Active	Y	Standard	Yes	1	
Firewall Analysis	FWA	Advisory Services	Cyber: Architecture	Tool based analysis of a customer's firewall(s) to identify risky firewall rules, duplicate rules and objects, rule-set consolidation, and hardening opportunities of the firewall itself.	Active	N	Custom	Custom Scope	0	
HIPAA Security Rule Risk Assessment	HSA	Advisory Services	Cyber: Governance, Cyber: Technical	Comprehensive risk assessment focused on a covered entity's ability to adhere to the HIPAA Security rule safeguards, manage risk across the landscape, and actively validate control implementation using various methods such as vulnerability scanning, penetration testing, social engineering, and evidence collection.	Active	N	Custom	Custom Scope	2	
HIPAA Security Rule Gap Analysis	HSG	Compliance Health Check	Cyber: Governance	High-level overview on an organization's ability to comply with the 44 administrative, physical, technical, and organizational safeguards as required by the HIPAA Security Rule.	Active	Y	Standard	Yes	2	
Infrastructure Hardening	INF	Security Testing	Cyber: Architecture	Analysis of infrastructure devices using industry and vendor best practices to evaluate devices for secure configuration practices providing prioritized guidance for remediation.	Active	N	Standard	Yes	1	
IR Program Development	IPR	IR Services	Cyber: Governance	The development of, in collaboration with customer stakeholders, IR policies, IR Plans, and roles and responsibilities for establishing an Incident Response Team.	Active	Y	Custom	Custom Scope	3	
Internal Penetration Test	IPT	Security Testing	Cyber: Technical	A controlled assessment simulating an internal threat to test the implementation of internal security controls using common attack tactics and techniques to demonstrate how an internal threat could gain unauthorized access to critical assets and sensitive data.	Active	Y	Standard	Yes	1	

ISO 27001 Program Development	ISOD	Advisory Services	Cyber: Governance	A service focused on establishing the requirements for ISO 27001 compliance and certification that includes scoping an ISMS, developing the ISMS foundation, implementing risk management processes, defining applicable control requirements, and prepping the customer for certification audits.	Active	Y	Custom	Custom Scope	1	
ISO 27001 Gap Analysis	ISOG	Compliance Health Check	Cyber: Governance	High-level overview of what controls need to be implemented to achieve certification and enables organizations to assess and compare existing information security controls against the requirements of ISO 27001.	Active	Y	Custom	Custom Scope	2	
Internal Vulnerability Assessment	IVA	Security Testing	Cyber: Technical	Tool-based authenticated scan of internal systems to discover missing patches, configuration issues, and other vulnerabilities that present a risk to the security of information assets and services.	Active	Y	Standard	Yes	1	
Microsoft M365 Co-Pilot Security Assessment	MCPS	AI Security		Comprehensive assessment of Client's M365 environment, including MS Co-Pilot and supporting components like Purview, Entra, Defender, etc. (or equivalent non-Microsoft solutions for DLP, endpoint, etc.) against Microsoft Co-Pilot security best practices guidelines. Includes CIS benchmark assessment of M365. Provides gap assessment of current state with prioritized remediation recommendations.	Active		Custom	Custom Scope		
NIST 800-53 Control Assessment	NIS3	Advisory Services	Cyber: Governance	Assessment focused on an organizations implementation effectiveness of the NIST 800-53 Controls.	Active	Y	Custom	Custom Scope	2	
Operating System Hardening	OSH	Security Testing	Cyber: Architecture	A configuration analysis of workstation and server devices using industry and vendor best practices to evaluate devices for secure configuration practices providing prioritized guidance for remediation.	Active	N	Standard	Yes	2	
PCI External Penetration Test	PCIEP	PCI	Cyber: Technical	An assessment that attempts to gain access to the customer's PCI CDE environment by demonstrating what a malicious actor would do by exploiting or gaining credentialed access to an internet-exposed service.	Active	Y	Standard	Yes	1	
PCI Gap Analysis	PCIG	PCI	Cyber: Governance	A line-by-line analysis of the organization's people, processes, infrastructure, and policies against applicable Self Assessment Questionnaires (SAQ).	Active	Y	Custom	Custom Scope	1	
PCI Internal Vulnerability Assessment	PCIIV	PCI	Cyber: Technical	Tool-based authenticated scan of internal systems to discover missing patches, configuration issues, and other vulnerabilities that present a risk to the security of PCI Cardholder Data Environment (CDE) information assets and services.	Active	Y	Standard	Yes	1	
PCI Internal Penetration Testing & Segmentation	PCIP	PCI	Cyber: Technical	Penetration testing of the PCI Cardholder Data Environment (CDE) and related systems to discover attack paths and validate adequate segmentation from the rest of the corporate/enterprise network(s).	Active	Y	Standard	Yes	1	
PCI Report on Compliance (ROC)	PCIR	PCI	Cyber: Governance	A formal and extremely detailed audit of available artifacts and evidence (documentation, device configurations, etc.), including testing and sampling of selected systems, processes, and documentation detailing with a core focus on PCI operations, personnel, and overall compliance status with over 500 requirements	Active	N	Custom	Custom Scope	0	

PCI Authenticated Web Application Assess	PCIWA	PCI	Cyber: Technical	Authenticated testing of a web application to identify vulnerabilities related to access control, information disclosure, cross-site scripting, misconfigurations, etc.	Active	Y	Standard	Yes	1	
Security Policy Development	POL	Risk Assessment	Cyber: Governance	Collaborate with key stakeholders to understand the culture, business needs, and security requirements throughout the organization to ensure information security policies and standards address the entire landscape and are enforceable.	Active	Y	Standard	Yes	2	
Purple Team Assessment	PTA	Advisory Services	Cyber: Technical	A collaborative assessment that simulates an internal attacker in the customer environment while helping the customer discover evidence of the attacker in their logs. The goal is to help the organization create automated alerts that will tell them when an actual attacker is attempting to move laterally and escalate privileges in their environment.	Active	N	Custom	Custom Scope	1	
Red Flags Assessment	RFA	Risk Assessment	Cyber: Governance	Quick survey to identify general cybersecurity capabilities and maturity of an environment; this is typically used to identify which aspect(s) of a cybersecurity program may need follow-up to	Active	N	Standard	Custom Scope	1	
Remediation Assessment	RMA	Security Testing	Cyber: Technical	A retest of previously discovered findings to validate that remediation has successfully removed these findings from the customer's environment.	Active	Y	Standard	Yes	1	
Red Team Assessment	RTA	Advisory Services	Cyber: Technical	A goal-based exercise intended to simulate a real-world threat using tactics, techniques, and procedures being used in the wild to compromise an organization and gain unauthorized access to critical assets and data. This may include a combination of social engineering, physical testing, and penetration testing.	Active	N	Custom	Custom Scope	0	
Attack & Breach Simulation	ABS	OSG			Future	-	No		0	
Web Application Scanning	WAS	OSG			Future	-	No		0	
Segmentation Strategy	SEG	Advisory Services	Cyber: Architecture	Advisory Services that will guide all technical teams to consistently isolate access using networking, applications, identities, and data classifications	Active	N	Custom	Custom Scope	1	
Security Program Assessment	SPA	Risk Assessment	Cyber: Governance, Cyber: Architecture	A formal comprehensive, qualitative risk assessment intended to evaluate organizational security program risk, maturity, and impact with the goal of providing strategic/tactical roadmaps, recommendations, and guidance in areas of organizational risk, compliance, and security architecture.	Active	N	Standard	Yes	1	
Security Tools Rationalization	STR	Advisory Services	Cyber: Architecture	Assess Client's cybersecurity tools and operations processes. Identify gaps and overlaps. Provide prioritized recommendations to address gaps and improve capabilities, maturity, and efficiency where possible. (Security Tools Rationalization is not a configuration assessment of the deployed tools)	Active					

IR Tabletop Exercise	TTX	IR Services	Cyber: Governance	A controlled, simulated exercise utilizing realistic scenarios that could affect the organization in a real-world scenario designed to evaluate organizational resilience by testing IR/IH plans, team/departmental coordination, escalation workflows, and leadership decision-making.	Active	Y	Standard	Yes	3	
Authenticated Web Application Assessment	WAA	Security Testing	Cyber: Technical	Authenticated testing of a web application to identify vulnerabilities related to access control, information disclosure, cross-site scripting, misconfigurations, etc.	Active	Y	Standard	Yes	3	
Unauthenticated Web Application Assessment	WAU	Security Testing	Cyber: Technical	Unauthenticated testing of a web application to identify vulnerabilities related to access control, information disclosure, cross-site scripting, misconfigurations, etc.	Active	Y	Standard	Yes	1	
Compromise Assessment	COMA	IR Services	Cyber: Governance	A technical assessment, powered by trusted security partners to determine whether or not a customer has been compromised by a malicious threat.	Retired	N	Custom	Custom Scope	2	
Remote Wireless Penetration Assessment	WLPT	Advisory Services	Cyber: Technical	A test of an organization's wireless networks to find improperly configured segmentation, weakly protected networks, and information disclosures that affect their wireless infrastructure.	Active	N	Standard	Yes	0	
IR Retainer	IRR	IR Services	Cyber: Governance	A service agreement that allows organizations to retain incident response services provided by teams with digital forensics capabilities and experience with triage, identification, containment, and eradication of security threats when a breach occurs.	Retired	N	Custom	Custom Scope	2	
Zero Trust Strategy	ZTS	Advisory Services	Cyber: Architecture	Assess client environment and use cases to document current state, define target state objectives, and provide remediation recommendations to move from current to target state. Findings and roadmap are aligned to NIST 800-207 and DoD Zero Trust Guidelines.	Active	N	Custom	Yes	1
